

PROCESS CONTROL FOR FLEXO SEMINAR

SEE WEBSITE FOR DATES

If you can't measure it, you can't control it!

This two-and-a-half day seminar examines the practices and tools required to maintain process control for flexographic printing. Get hands-on during all stages of the process, from digital prepress to platemaking, ink mixing, press setup, print analysis and more. Industry experts will be on-hand to demonstrate the latest technology available to help you get your process under control. Presentations will cover best practices and strategies for measurement, automation and more.

Who should attend?

- Prepress and press operators
- Prepress, print and plant managers
- Quality assurance
- Process improvement

Topics covered:

- Process optimization
- Best practices and operating procedures
- Industry standards and specifications
- Prepress automation
- Platemaking and measurement
- Ink formulation and measurement
- Press setup and maintenance... and more!

RATES:

- \$995/person
- \$895/person for early bird or 3+ registrants
